**3.Online education at your doorstep:** The involvement in the course is high. Online learning helps the parents to look over and know what their children are studying.

**4. Individual attention:** Online courses have a significant advantage when it comes to serving direct pipeline between the student and the online tutor. Ask questions or clearing doubts.

**6. Efficient and active learning:** How many of us remember what we read in Grade 6<sup>th</sup> or any course we have learnt? The reality is, we are not capable of retaining that is learnt. But with online training, we tend to remember what is taught. Daily classes recordings will be sent through email .

**7.Less expensive:** Online courses are less expensive when compared to classroom coaching. One can save a lot on travelling cost and time, boarding/lodging cost etc .
